LEADERS IN SAFETY EXCELLENCE

with a nationally-recognized safety program to prove it.

Miller Bros. Const., Inc. is a two-time recipient (2016 & 2011) of the National Construction Safety Excellence Award (CSEA) from Associated General Contractors. The CSEA program recognizes the industry's premier safety and loss prevention programs for continuous improvement and maintenance.

Put the MBC team to work on your next project and experience the benefits of a safety-drive construction culture.

Expertise From Concept to Completion

Duke Realty Services, Ohio
Work on this 68-acre site including moving over 286,000 cy of earth and installing tens of thousands of feet of sanitary sewer lines, fire protection water mains and storm drainage. Wet soil conditions didn't slow down the fast-track schedule, thanks to proactive planning and creative solutions.

\$3.3million

Home Depot Distribution Facility, Ohio
This project is one of the largest distribution facilities ever constructed in the state. In 30 just days, crews transformed a field to a building-ready, 150-acre site complete with a 1.6 million square-foot building pad. MBC also provided excavation and crushing services for on-site rock that was used elsewhere in the project.

\$10.4million

Bowling Green State University Parking Facility Improvements, Ohio
This 30-acre civil site project included underground utilities, rock excavation, mass earthwork and erosion control. MBC's work on the asphalt paving portion was honored with an award from Flexible Pavement Association.

\$2million
